ABOUT °CRYO SCIENCE

WELLNESS & CRYOTHERAPY MACHINES FOR YOUR BUSINESS

Cryo Science delivers the most advanced premium quality cryotherapy chambers to ensure that your business provide flawless luxury experiences. Cryotherapy is an astonishing innovation that is bound to attract new clients to your business and help you increase revenues. Producing amazing mental and physical health benefits by exposing the body to extremely low temperatures, whether you want to make cryotherapy the basis of your business or add it to your range of services, our mission is to guide you to the right decision for your business. Discover our stunning range of world-class cryotherapy machines and find out how you can boost ROI if you purchase our products.

WE SELL THE ONLY **TGA-APPROVED** CRYOTHERAPY CHAMBER ON THE MARKET

WHAT MAKES CRYO-SCIENCE THE INDUSTRY LEADER?

FLAWLESS CUSTOMER SERVICE

We provide customer services to our clients 24/7 to help set up their machines after purchase.

GUARANTEE OF QUALITY

When you purchase our equipment, we provide a warranty of 36 months.

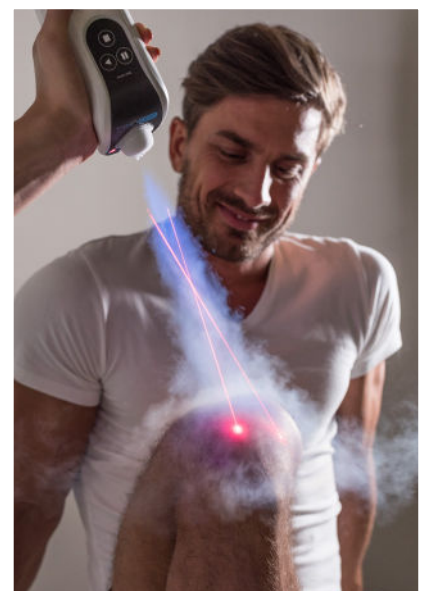

APPROVED & CERTIFIED

We supply only TGA approved cryotherapy that adheres to the Australian standards

THE REAL FULL-BODY CHAMBER

The Real Full-Body Chamber You can trust us to provide the only real full-body cryotherapy chamber available on the market.

WHY CRYOTHERAPY?

IS CRYOTHERAPY THE RIGHT MOVE FOR YOUR BUSINESS?

Cryotherapy is a global trend you should invest in right now! Offering new, luxury spa experiences and enormous benefits for mental and physical health as well as beauty, skincare and weight loss, it is the future of the wellness industry and a great opportunity for you to expand your business or start a completely new one. Let our experienced team help you choose the right equipment and share the professional knowledge of how you can use it to make a thriving business. We can also provide step-by-step guidance to help you calculate the costs and make a successful business plan.

RAPIDLY GROWING INDUSTRY

The cryotherapy industry is still in its infancy stages, it is set to grow rapidly in coming years.

ATTRACTS HIGH-VALUE CLIENTELLE

Cryotherapy attracts high-value clients who have disposable income that they are willing to invest for their health and wellness.

MAKE A DIFFERENCE TO PEOPLE

Cryotherapy makes a real difference to people's lives. The results are varied and significant. Often cryotherapy is a last resort and it's nice to see people finally find something that helps.

VERY PROFITABLE

Cryotherapy has a very low operational cost, treatments are quick and the machines can make hundreds of dollars every hours. Cryotherapy has a high level of repeat business, giving you a consistent stream of customers.

HIGH BARRIER TO ENTRY

The cost of cryotherapy technology means that it is a high end luxury item not affordable by 'at-home' businesses. This keeps the demand high and the competition low.

EASY TO OPERATE

Cryotherapy machines are easy to run and can be operated by retail-level staff with some training.

EXCELLENT EXTRA REVENUE STREAM

Cryotherapy makes a great add-on for many existing businesses. It makes a great 'bonus' or inclusion in packages or memberships. It attracts higher value clients to your business too!

WHY CRYOTHERAPY?

CRYOTHERAPY CLINICS

You can rely on Cryo Science to provide the safest and the most innovative cryotherapy products on the market to ensure maximum health benefits for your patients. We supply cryo chambers to the most reputable cryotherapy clinics in Australia because our products are tried, tested and sure to deliver the best results while minimising hazards.

SPORTS TEAMS

Since cryotherapy is an excellent way to promote healing processes and help sports professionals recover, you will benefit from our cutting-edge products. We have the best cryotherapy equipment available on the market!

SPAS & BEAUTY CLINICS

Cryo Science has premium quality cryotherapy products, oxygen therapy air pods and infrared saunas that will take your business to the next level. Our range of products is a great addition to any spa or beauty clinic!

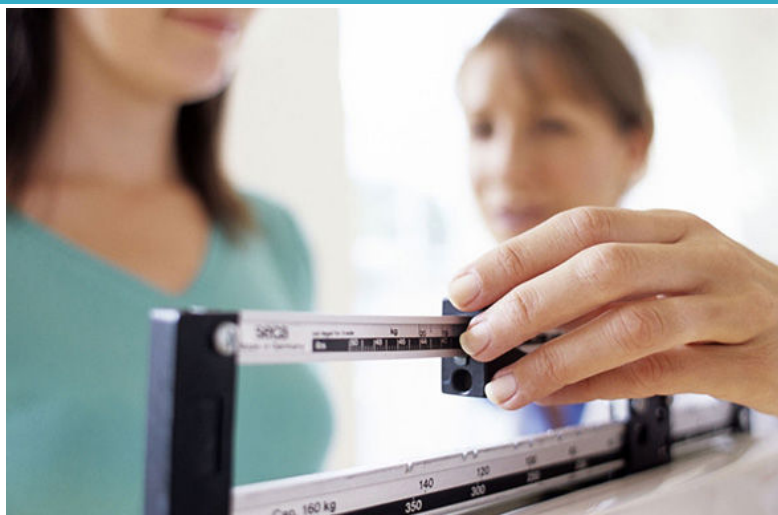

RECOVERY & REHABILITATION CENTRES

Our cryotherapy, infrared heating and oxygen therapy devices are ideal for rehabilitation centres because they promote self-healing processes and stimulate faster recovery. Invest in our products to attract more customers and increase revenues.

WEIGHT LOSS CENTRES

Cryotherapy promotes weight loss, cellulite reduction and body sculpting, and we have the best full-body chambers as well as devices for localised applications. Invest in our products to elevate your weight loss business and boost sales.

COUNTRY CLUBS

Choose from our range of cryotherapy and other wellness products to offer your clients more luxurious experiences. We have exquisite wellness devices, including cryo chambers and infrared saunas that are ideal for country clubs.

WELLNESS CENTRES

Cryo Science has everything you need to boost your wellness business and attract more clients with luxury cryotherapy treatments. Our products are designed to deliver extraordinary wellness experiences while ensuring maximum health and safety.

POST-SURGERY RECOVERY CLINICS

Cryotherapy is proven to speed up recovery processes, and we have a range of superior devices designed for post-surgery treatments. You can rely on Cryo Science to provide the best cryotherapy machines available in Australia!

°CRYO ARCTIC™

The only cryo chamber that offers true whole body cryotherapy

BENEFITS

At Cryo Science, you can purchase the only cryotherapy chamber that can reach the lowest temperatures and fit the whole body. Our °CRYO Arctic™ uses innovative technology to provide safe and effective treatments that benefit mental and physical health while enhancing skin quality and working towards slimming and toning. It is a fantastic purchase because it is the only true full-body chamber that is TGA approved, 100% safe to use and extremely efficient. Unlike other products, this cryotherapy chamber protects users from exposure to cryogenic gasses while providing clean and fresh, breathable air.

THE SAFEST PRODUCTS ON THE MARKET

Our chambers were designed to prevent direct exposure to cryogenic gasses while using the latest heat exchange system to allow users to enjoy breathable air.

MAXIMAL COMFORT

°CRYO Arctic features temperature control and adjustable windows for optimal comfort, ensuring that the head remains elevated and above the chamber.

HIGH-QUALITY SOUND VIA BLUETOOTH

Your clients will be able to play music and communicate with operators as our chambers feature Bluetooth connectivity.

OPTIMAL TEMPERATURES

Our chambers were created to provide steady temperatures throughout the full-body cryotherapy sessions.

TAILORED TREATMENTS

When you purchase our °CRYO Arctic, you can set up a personal ID for all of your clients to enable instant access to their files and make sure they receive treatments that are carefully tailored to their needs.

CERTIFIED PRODUCTS

°CRYO Arctic is fully certified and approved for use by the Therapeutic Goods Administration of Australia, which guarantees its safety and efficiency.

FEATURES

°CRYO Arctic is the only product that measures the temperature inside the chamber with utmost precision. With the capability to reach extremely low temperatures of -100°C – -140°C , it ensures maximum efficacy and the best results. Purchasing this product will ensure that you meet your clients' expectations and establish an impeccable reputation in the wellness industry.

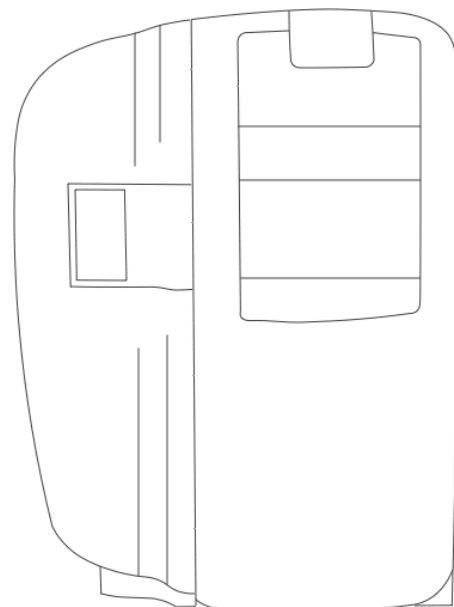

- ✓ **Maximum Safety** - The °CRYO Arctic is the safest product on the market because your clients won't be directly exposed to dangerous nitrogen.
- ✓ **Convenient Display** – A display inside the chamber ensures additional convenience as clients can check the duration of the treatment and read advertising messages.
- ✓ **Audio System** – Clients can enhance the experience by playing music via Bluetooth and communicating with operators while in the chamber.
- ✓ **Flexible Window** – It is possible to adjust the size of the window which allows clients to choose between partial and full-body treatment.
- ✓ **Fresh Air** – Clients will be protected from dangerous vapours and exposed to breathable air inside the chamber.
- ✓ **Temperature and Air Flow Control** – The touchscreen allows the control of temperature and airflow in the chamber.
- ✓ **Premium Materials** – Our chambers are crafted from the finest innovative cryogenic materials.
- ✓ **Plenty of Room** – °CRYO Arctic™ is spacious and comfortable, allowing clients to freely move during the treatment.
- ✓ **Easy Access** – Our chambers feature low doorsteps, offering an easy and convenient way to enter or exit.

BASIC SPECIFICATIONS

°CRYO Arctic™ is practical and easy to install and use. To ensure optimal functionality, you need to fulfil minimal requirements regarding the space, ventilation and safety measures:

- ✓ Make sure that the room has at least 20 square meters
- ✓ Ventilate the space regularly
- ✓ Connect the nitrogen tanks using the cryogenic hose and handle them carefully
- ✓ The building must have a good ventilation system so that you can let the nitrogen vapours out easily
- ✓ Install sensors for detecting oxygen levels to ensure maximum safety

PRICE & INCLUSIONS

The °CRYO Arctic is **\$145,000AUD** inclusive of GST, shipping, delivery, installation, training and marketing materials.

A °CRYO Arctic Tank is **\$9,800AUD** inclusive of GST, shipping, and delivery. (one is required for residential purposes and two is required for commercial purposes).

A °CRYO Arctic Hose is recommended to connect to the tank and maximise sessions. It is **\$3,990AUD** inclusive of GST, shipping and delivery. Only one is required for commercial purposes.

PRICE PER SESSION

A 3 minute session with the °CRYO Arctic machine is \$99 for commercial purposes.

OPERATING COSTS

In terms of Gas/Liquid Nitrogen consumption you're looking at around \$1 per Litre in metro areas around Australia. The °CRYO Arctic consumes approximately 8L per session (3 minutes). If sessions are run back-to-back it uses even less - liquid nitrogen consumption can be as low as 4L per treatment. The estimated number of sessions per 230L tank of liquid nitrogen back to back is up to 60. If it's not back to back then the estimated number of sessions per 230L tank of liquid nitrogen is up to 30 sessions.

RETURN ON INVESTMENT & PROFITABILITY

With the session price of \$99 and the session cost of \$8 (assuming a nitrogen cost of \$1/litre), the profitability per sessions is about \$91 per 3 minute session.

While hypothetically it is possible to operate the machine back to back and push through 20 people in a single hour so it is constantly running, this is not practical and what we typically see is businesses doing anywhere from 4 - 10 sessions per hour, allowing for some brief client liason before and after the session.

Here are some various hypothetical business cases to consider starting from very modest calculations through to running the machine non-stop all the time. Most businesses fall somewhere in the middle.

	CASUAL	DEVELOPING	IDEAL	OPTIMAL	MAXIMUM

°CRYO PENGUIN™

Offer sale and effective localised cryotherapy

BENEFITS

The °CRYO Penguin™ is a mobile cryotherapy machine built to the highest. It was created for effective localised cryotherapy procedures. You can use it to target specific issues and expose parts of the body to low temperatures. Its key features include integrated safety mechanisms, exquisite ergonomic design and pre-set protocols. Offering the safest solution for localised cryotherapy, it is an essential piece of equipment that aims to improve health, beauty and wellbeing. While stimulating cell reproduction and blood circulation, it can be used to repair damaged tissues, minimise the signs of ageing or enhance the complexion. When you purchase this product, you are bound to add value to your existing range of services and attract more clients.

EXTRA SAFE

°CRYO Penguin™ is safe to use because it features lasers, sensors and other mechanisms to control the distance and body temperature or ensure that the device shuts down after being idle.

SUPER EFFECTIVE

The device is using the minimum amount of nitrogen which reduces the cost per treatment while ensuring optimal efficiency. It is impactful and cost-effective at the same time to ensure you increase your ROI.

SMARTLY DESIGNED

°CRYO Penguin™ is designed for easy use with an ergonomic handle nozzle and the tank is housed in an attractive container.

EASILY TRANSPORTABLE

Our mobile cryotherapy device is equipped with wheels that ensure easy transportation.

FEATURES

The °CRYO Penguin™ is compact, practical and easily transportable, allowing you to expand your services while saving on square meters! Meticulously designed to suit your needs, it is the most innovative mobile cryotherapy machine suitable for the localised application. This ground-breaking device has many advantages and offers numerous benefits which is why it is one of the most sought-after cryotherapy products in the market.

- ✓ **Easy to Operate** – Featuring the auto-balancer and the pre-set protocols calibrated for different parts of the body, it makes the job easy for the operator.
- ✓ **High Safety Standards** – In-built sensor measures temperature and alerts the operator as soon as it approaches the limit.
- ✓ **Better Control** – Ergonomic handle nozzle ensures remote control and easier application.
- ✓ **Handy Touchscreen** – 10" interface allows easier controls and treatment management.
- ✓ **Mobile Vessel** – Nitrogen vessel can take up to 50 litres of nitrogen which allows for quick and easy refill.

BASIC SPECIFICATIONS

Smart, innovative design of our °CRYO Penguin™ ensures intuitive and easy use, maximum efficiency and optimal safety. It is a one-of-a-kind product on the market as it allows localised application and low nitrogen consumption. This cutting-edge mobile cryotherapy device has the most advanced features:

- ✓ Intuitive and user-friendly touch-screen interface.
- ✓ Easier treatment management with the ergonomic handle nozzle.
- ✓ Extra safety due to in-built sensors for controlling temperature.
- ✓ Indicators for easier use.
- ✓ Projected light for more precision in treating the specific area of the body.
- ✓ Easily transportable vessel that can take up to 50 litres of nitrogen.
- ✓ Auxiliary arm for enhanced comfort.
- ✓ Optimisation for any voltage ranging from 110 and 230 or 50/60 Hz.

PRICE & INCLUSIONS

The °CRYO Penguin is **\$75,000AUD** inclusive of GST, shipping, delivery, installation, training and marketing materials.

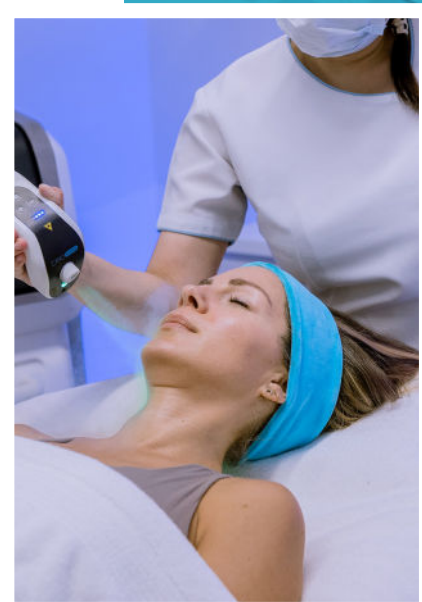

PRICE PER SESSION

A session with the °CRYO Penguin machine is 12 minute long and has a recommended price of \$129.

The average client will require 6-12 sessions.

OPERATING COSTS

The consumable costs of this machine is approx. \$2 per session.

RETURN ON INVESTMENT & PROFITABILITY

With the session price of \$129 and the session cost of \$2, the profitability per sessions is about \$127 per 12 minute session.

We typically see businesses doing anywhere from 15 - 20 sessions per day. Here are some various hypothetical business cases to consider starting from very modest calculations through to running the machine non-stop all the time. Most businesses fall somewhere in the middle.

Offer safe and effective body contouring

BENEFITS

Using cutting-edge technology, the °CRYO Wave™ is the game-changer in the wellness industry. It is the most advanced non-invasive cryotherapy device ideal for slimming, body contouring, cellulite reduction, anti-ageing and rejuvenating. Designed to improve the physical appearance, it combines hot and cold therapeutic methods, including thermal shock, cryo-lipolysis and LED therapy. It is a unique investment buy that will attract more clients and elevate your revenues.

EXTRA SAFE

Equipped with a thermocouple temperature sensor, it prevents overheating.

SUPER EFFECTIVE

Featuring internet connectivity, the machine ensures communication with service support for enhanced safety.

SMARTLY DESIGNED

With the possibility to illuminate the target area, the device is easy to operate.

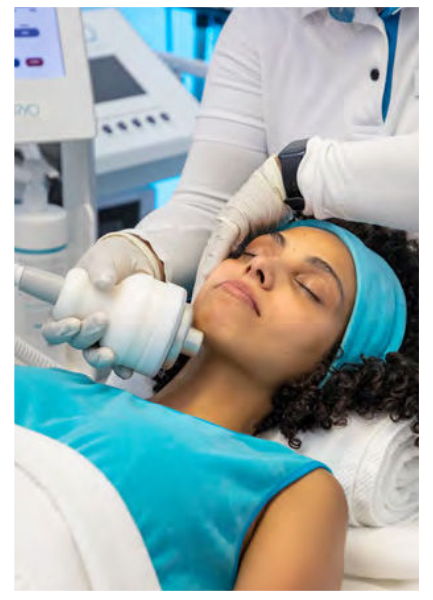

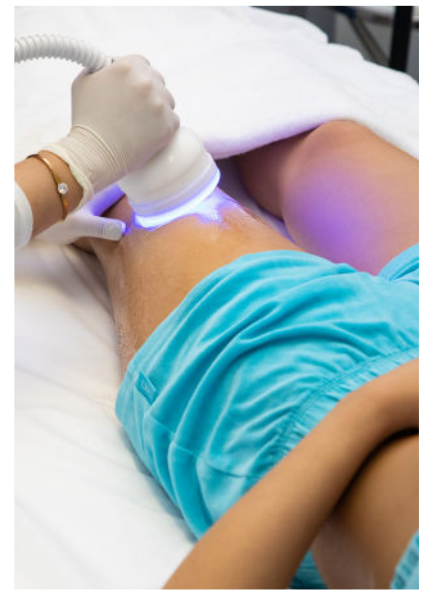

EASILY TRANSPORTABLE

Equipped with wheels, the device is fully mobile and portable.

FEATURES

°CRYO Wave™ is safe, practical, efficient and perfectly designed for easy use. It is the most innovative solution for non-invasive and painless slimming, anti-ageing and pain management treatments. The combination of hot and cold treatments delivers extremely effective results without using any dangerous chemical gasses. The key benefits include:

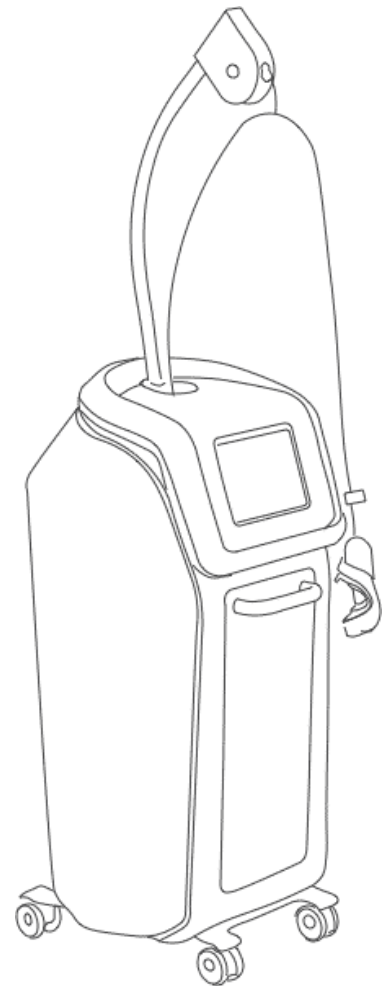

- ✓ Effective non-invasive treatments
- ✓ Optimal results without bruises and hematomas
- ✓ Easily transportable device
- ✓ User-friendly, intuitive interface for easy control
- ✓ Cryotherapy with ambient light
- ✓ Easy-to-use vibrating handle

BASIC SPECIFICATIONS

°CRYO Wave™ uses the most innovative technology that includes both hot and cold therapy for better results. It operates between -18°C to 45°C providing numerous benefits for slimming, anti-ageing and pain management. This ground-breaking device is the latest innovation offering extremely efficient non-invasive and painless therapies such as thermal-shock, contrast lipolysis and LED therapy. Since °CRYO Wave™ is fully electricity-powered, it doesn't use dangerous chemical gasses and is safer to use. The most advanced features include:

- ✓ Illuminated treatment area
- ✓ Enhanced safety with the thermocouple temperature sensor
- ✓ Smart technology with the touch-screen interface for optimal control
- ✓ Fully electricity-powered device
- ✓ Temperature ranges from -18°C to 45°C
- ✓ The highest electric energy consumption 250W
- ✓ Universal power supply 110/230V
- ✓ Disposable electric energy supply plugs and CE certification

PRICE & INCLUSIONS

The °CRYO Wave is **\$85,000AUD** inclusive of GST, shipping, delivery, installation, training and marketing materials.

PRICE PER SESSION

A session with the °CRYO Wave machine is 60 minutes long and has a recommended price of \$699.

The average client will require multiple sessions.

OPERATING COSTS

The consumable costs of this machine is approx \$1 per session!

RETURN ON INVESTMENT & PROFITABILITY

With the session price of \$699 and the session cost of \$1, the profitability per sessions is about \$698 per hour session.

°CRYO GLACIER™

The only electric cryo chamber that offers true whole body cryotherapy

BENEFITS

The °CRYO Glacier™ is the most innovative and the most sought-after cryotherapy chamber designed for full-body treatments. Capable of developing low temperatures up to -140°C and filled with clean, breathable air, it is efficient for physical and mental health, wellbeing, weight loss and beauty. It is also the only true whole body cryotherapy chamber on the market, and it guarantees to bring you new clients and elevate your business. Since it is fully electricity-run and doesn't utilise harmful gasses, it is both efficient and safe to use. Contact us today to talk to our knowledgeable team members and find out how °CRYO Glacier™ can take your business to the next level and boost sales.

ELECTRICITY POWERED

When you purchase °CRYO Glacier™, you don't need a gas supply as it can Achieve low temperatures without using nitrogen.

COOL, BREATHABLE AIR

°CRYO Glacier™ is the only full-body cryotherapy chamber with breathable air. It can reach extremely low temperatures.

ADVANCED CONTROLS

The chamber is equipped with an occupancy sensor that automatically opens the door as soon as the treatment is over. The advanced control mechanism allows you to program treatments in advance.

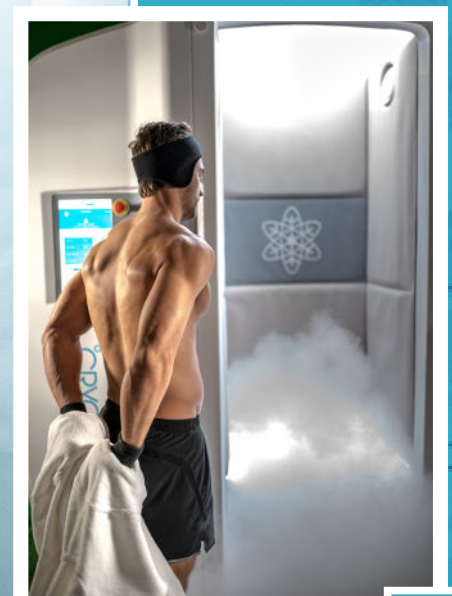

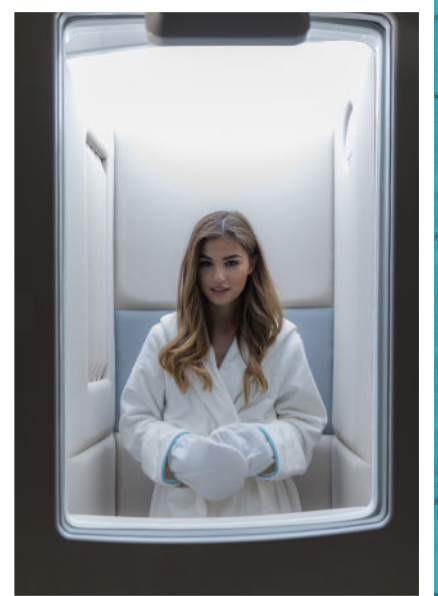

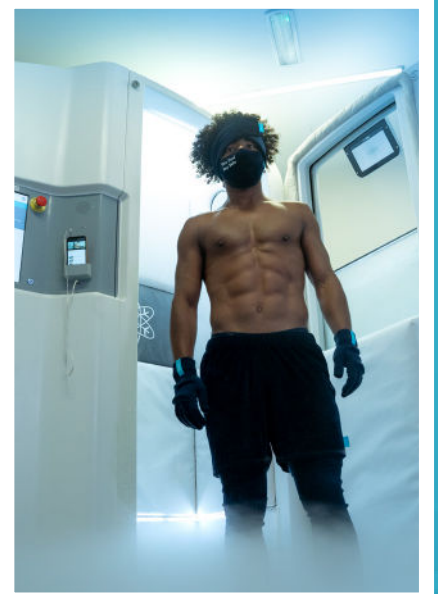

MOOD LIGHTS & UVB ILLUMINATION

Mood lighting are enhancing user experience, while UVB allows for the synthesis of vitamin D3.

FEATURES

°CRYO Glacier™ can reach low temperatures of -140°C, ensuring efficient performance, luxury experience and impeccable safety controls. It is the only cryotherapy device that allows accurate temperature measuring inside the chamber and can be programmed to suit clients' needs. Delivering the optimal results for your clients guarantees the return of investment through increased sales! These features make °CRYO Glacier™ so unique and sought-after on the market:

- ✓ **Smart Controls** – Smart doors can be opened and closed automatically to allow operating the chamber without human assistance.
- ✓ **Easy Communication** – 2-way communication system ensures that clients can speak with operators during treatments.
- ✓ **Client Controls** – Clients can tailor their experiences by choosing mood lights, music, sounds and other enhancements.
- ✓ **Unique Sounds** – There is a selection of soundtracks uniquely created to target specific health or wellbeing goals.
- ✓ **Records Data** – Treatment data is stored and analysed to allow progress monitoring.

BASIC SPECIFICATIONS

°CRYO Arctic™ is practical and easy to install and use. To ensure optimal functionality, you need to fulfil minimal requirements regarding the space, ventilation and safety measures:

- ✓ To install the chamber, you need a room of a minimum of 20m²
- ✓ Make sure you have a room or an outdoor area where you can install machinery
- ✓ Place the dry cooler in a space with access to ambience such as the roof or space underneath the ceiling featuring air channels
- ✓ Keep in mind that the device can achieve temperatures of -140°C or -220°F and that it takes two hours to cool

PRICE & INCLUSIONS

The °CRYO Glacier is **\$295,000AUD** inclusive of GST, shipping, delivery, installation, training and marketing materials.

PRICE PER SESSION

A 3 minute session with the °CRYO Glacier machine is \$199 for commercial purposes. This is because it also incorporates Vitamin D3 synthesis technology whilst the patient is in the chamber during their session.

OPERATING COSTS

The °CRYO Glacier is an electric whole body cryotherapy chamber thus there is no liquid nitrogen to be used. Other than overheads and electricity operating costs there are no consumable costs.

RETURN ON INVESTMENT & PROFITABILITY

With the session price of \$199 with virtually no cost per session, the profitability per sessions is about \$199 per 3 minute session.

While hypothetically it is possible to operate the machine back to back and push through 20 people in a single hour so it is constantly running, this is not practical and what we typically see is businesses doing anywhere from 4 - 10 sessions per hour, allowing for some brief client liason before and after the session.

THE INFINITY SAUNA

An infrared sauna is the perfect add-on for any wellness business.

BENEFITS

A true commercial-grade infrared sauna that is designed for continuous use. Heavy-duty with all the features needed to deliver results to your clients. This sauna is designed to fit up to 2 people comfortably with space to spare.

Beautifully designed to offer the ultimate comfort, multiple health benefits and relaxing experiences, our Infinity infrared saunas guarantee a return on investment. The infrared heaters are designed to produce near, mid and far infrared lights and deliver results faster than other devices on the market.

SOUND & CONNECTIVITY

Infinity infrared saunas are fitted impressive sound system so that users can connect audio via Bluetooth. They also have TV mounts as a perfect way to add extra entertainment options.

ERGONOMIC DESIGN

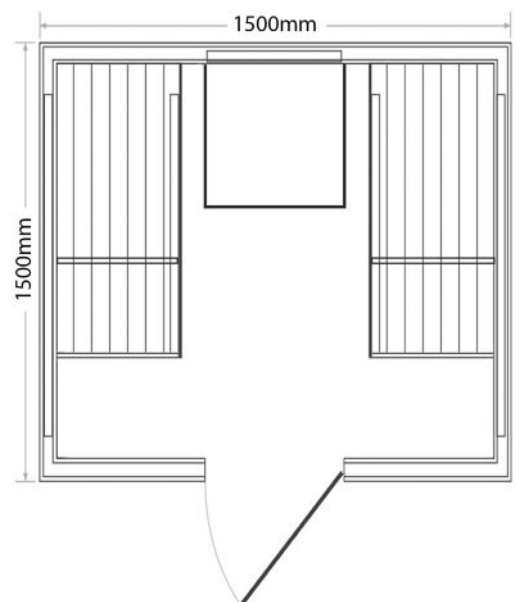

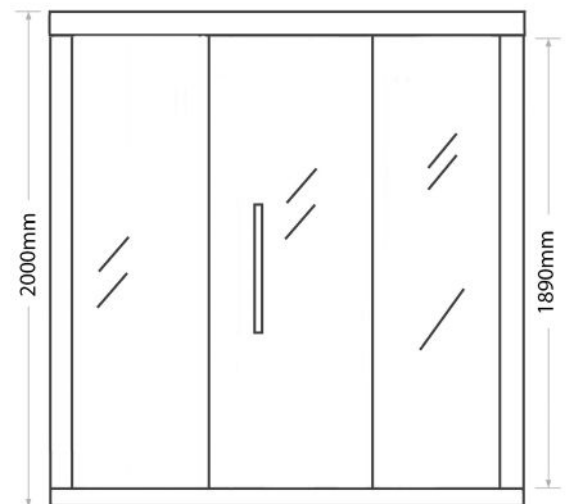

With a perfectly designed ergonomic backrest, it is easier to relax and unwind while enjoying the comforting infrared lights.

MOOD LIGHTING

Energy-efficient ambience lights provide additional quality and enhance the experience.

THREE-BLEND INFRARED TECH

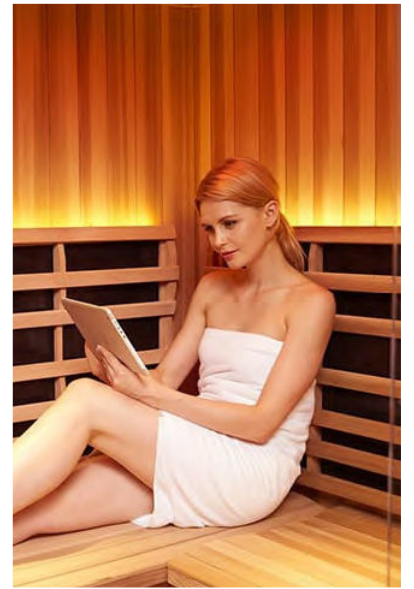

These saunas use the perfect combination of infrared heating, gaining even amounts of infrared from carbon fibre plating, ceramic tubes and spectrum heaters. This gives the perfect balance between heating speed and power consumption without compromising the results.

FEATURES

Infinity infrared saunas are unique due to their modern, ergonomic design enhanced with a sound system, TV mounts, digital controls, Bluetooth and Wi-Fi connectivity, ambience lighting, easy access and remote control. They offer full spectrum heating to deliver the best possible healing and wellness effects while ensuring your clients enjoy indulgent experiences. Advanced heating options combine near, far and mid-infrared technologies. The key features include:

- ✓ True commercial-grade infrared sauna
- ✓ Largest 2 person sauna around
- ✓ Three-blend Infrared heating
- ✓ Ergonomic bench is reversible and designed by doctors
- ✓ Keypad controls of heat, temperature, lights and more
- ✓ Superior sound system with TV mounts
- ✓ Therapeutic lighting for enhanced healing effects

THE INFINITY 3D BODY COMPOSITION ANALYSER

A quick, expert report showing the measurements that really matter

This body composition machine scans and measures the amount of Bone, Fat and Muscle you hold. It's a simple scan that takes less than 5 minutes. This body scan reveals how healthy an individual is and is a beneficial point of information for individuals. The body scan offers an in-depth analysis of your body compared to traditional scales. This is an excellent machine to help track client results and can be used to determine which treatments would best suit clients.

PRICE & PROFITABILITY

With a session price of \$50, with virtually no cost other than the paper and ink the report is printed on, this machine can be a revenue source in its own right. We see many businesses also using reports from this machine to help up-sell and cross-sell other treatments. This service is often bundled in or added as a bonus to incentivise packages and memberships.

THE INFINITY PRO BED

Feel rejuvenated with this premium red-light therapy bed.

This whole body light therapy bed relieves pain, improves muscle and joint mobility using photobiomodulation technology to evenly and precisely deliver red and near-infrared light to areas of degeneration or injury. It is able to regenerate cells and stimulate blood flow, both of which have healing and pain-relieving benefits. This device also appeals as a pain-relief option that is non surgical and non-pharmaceutical.
